### **DETAILED ACTION**

An Office action on the merits follows below. The period of deferral of examination under 37 CFR **1.103(d)** expired on March 20, 2006.

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1,2-4,6-11,14,13,16-18 and 20-23 are rejected under 35 U.S.C. 102(e) as being anticipated by US Pat. Applic. Pub. No. 2003/0131820 to McKay et al. See the abstract. Note that the number of cylinders activated depends on at least a vehicle speed sensor. The vehicle speed is indicative of a vehicle chassis condition. The number of cylinders activated is dependent also on engine speed. Cylinders may be activated and deactivated by controlling the intake and exhaust valves, see last 6, lines of paragraph 29. Vehicle speed may be considered indicative of a modal frequency of a driveshaft.

#### ***Allowable Subject Matter***

3. Claims 5,12,15 and 19 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
